

# CUNARD DEVELOPMENT

Tuesday, April 27<sup>th</sup>, 2021

## NOTICE

---

Dear Neighbours,

Southwest Properties has received notice that the steel “H” piles are now on site and installation will begin tomorrow April 28<sup>th</sup>, 2021.

Pile driving and drilling work is an important stage of the development and will take approximately 3 to 4 months to complete. Our site team has communicated [HRM's working hours and noise by-laws](#),\* to all sub-contractors.

The construction of the pedestrian trestle bridge on the southern end of the boardwalk is progressing at a good pace and we anticipate completion prior to the end of May. Public connectivity along the Halifax waterfront continues to remain accessible during this building period.

Please direct any questions pertaining to site activity to Southwest Properties at [urbanhalifax@southwest.ca](mailto:urbanhalifax@southwest.ca)
