About Build Nova Scotia

An essential element of our work is developing, building, and renewing infrastructure that keeps Nova Scotians healthy, connected, and thriving, no matter where they live. Learn more about what we do and how we do it at buildns.ca.

Background

Build Nova Scotia acquired the Lunenburg waterfront properties from Clearwater in 2006, initially focusing on stabilizing assets, leasing, and divesting non-strategic holdings. Building on a 2011 business plan informed by public consultation, Build Nova Scotia launched the Lunenburg Working Waterfront Plan in 2018. This plan has guided over \$11 million in recent investments, including the Big Boat Shed expansion, redevelopment of the former Smith & Rhuland Shipyard, upgrades to key wharves, and new marina infrastructure.

Founded in 1789, Zwicker & Co. was a cornerstone of Lunenburg's waterfront economy for nearly 200 years, pioneering transatlantic shipping and fish exports. The remaining Zwicker & Co. Warehouse, with sections dating to the late 1800s, served as both headquarters and a primary storage facility.

In 2026, Tide & Trail was awarded the BDO for the ground floor and will activate the space with a bike rental shop and café/bar, contributing to the vibrancy of the waterfront and enhancing the visitor experience.

The renovated Zwicker & Co. Warehouse now offers two upper-floor opportunities for proponents. Once fully activated, the building and surrounding public space will strengthen Lunenburg's working waterfront, supporting local businesses and a growing marine visitation program.

Detailed Description of the Opportunity and Desired Outcomes

Build Nova Scotia's objective is to maintain and enhance the Lunenburg waterfront as a vibrant, year-round working waterfront. We are seeking operators who share a commitment to strengthening the waterfront and contributing meaningfully to the local community.

The Zwicker & Co. Warehouse, ideally located on the Lunenburg waterfront, offers a unique opportunity to establish and grow a business in the heart of this iconic destination while supporting the broader vision for the waterfront.

The second and third floors are open-concept spaces suitable for purpose-built development and should ideally support Lunenburg's working waterfront and expanding marine sector. Proponents may submit proposals for one or both floors. While all concepts will be considered, proposals focused on "Ocean Tech" and those that showcase and enhance the working waterfront will be prioritized. Build Nova Scotia reserves the right to award each floor separately to best achieve desired outcomes.

The minimum lease term is four (4) years, with an option to renew for an additional five (5) years. Longer terms may be considered based on the level of operator investment. All tenant improvements and costs associated with preparing the space for operation will be the sole responsibility of the operator(s).

Process Outline and Selection Criteria

Potential operators are to submit a proposal no more than ten (10) pages in length. Proposals should include, and will be evaluated on, the following:

Strategic Alignment (30% of overall score) – The operator(s) that Build Nova Scotia will partner with will understand what is important to Lunenburg, as a community, and to Build Nova Scotia as a community partner. Proposals should:

- Clearly demonstrate a strong and credible connection to Lunenburg’s working waterfront, marine sector, or ocean tech ecosystem. Proponents must demonstrate how the proposed use of the space supports marine industry activity, innovation or research. **(9 points)**
- Provide details on how their business will generate measurable economic benefits including job creation, partnerships, local supply chain engagement and contribute positively to the broader waterfront ecosystem. **(8 points)**
- Complement other businesses on the Lunenburg waterfront by offering a use that enhances, rather than duplicates, existing services and activities. Proposals should demonstrate an understanding of the current waterfront ecosystem and identify opportunities to work with nearby operators, support cross-promotion, and contribute to a balanced mix of uses. **(8 points)**
- Demonstrates additional value to the Lunenburg waterfront, including how the proposed operation supports accessibility and inclusion (e.g., reducing barriers and offering inclusive experiences), incorporates environmentally sustainable practices, and contributes to social responsibility through community engagement, partnerships or initiatives. Proponents should clearly outline how these elements will be integrated into their operations and enhance the overall waterfront experience. **(5 points)**

Business Concept (30% of overall score) – Proposals should provide a clear description of their business and how it will operate, including:

- A clearly defined business plan that includes the activities that will occur on site, service model, and day-to-day operations. **(8 points)**
- Outlines proposed hours of operation and seasonal considerations that still reflect reliability and consistency in operations. **(6 points)**
- Provides a detailed description of proposed tenant improvements to the site and the capital investment. Proponents should demonstrate how the fit-up supports the functionality, quality, and long-term viability of the operation. **(8 points)**
- Includes a clear overview of the business offering, including pricing if relevant, demonstrating that the business is well aligned with the intent of this BDO and appropriately suited to the second and/or third floor space. **(8 points)**

Business Experience (20% of overall score) – Potential operators are to describe the business experience that is relevant to the proposed operation, in addition to their capacity to deliver and maintain the business. Proposals should:

- Demonstrate strong and directly relevant business experience of the owners in addition to the management team's roles, qualifications, and involvement in the proposed operation. **(5 points)**
- Proponents must clearly demonstrate strong operational capacity, including a staff plan, appropriate infrastructure, systems, and resources available to them at a high level to proceed with the business. **(8 points)**
- Financial capacity through clear evidence of available equity, financing, and documentation (e.g., letters from financial institutions). **(7 points)**

Financial Proposal (20% of overall score) – Submissions must include a base monthly rent proposal and, depending on your business concept and model, a percentage of sales proposal. If offering a percentage of sales, a revenue forecast must be provided for the first three (3) years of the term. As stated above, all tenant improvements and further building fit-up are the sole financial responsibility of the Proponent.

Build Nova Scotia has the sole authority to adjust sales projections, and subsequently points awarded for Financial Proposals, if we determine that the sales projections are not realistic.

Financial proposals will be evaluated using a comparative scoring model. The proposal with the highest total financial offer will receive the maximum available points. All other proposals will be scored proportionally by dividing their total financial offer by the highest offer and awarding the corresponding percentage of points.

As stated above, all tenant improvements and further building fit-up are at the sole financial responsibility of the selected operator. All costs associated with business operations, including but not limited to utilities, repairs and maintenance, applicable taxes etc. are the sole financial responsibility of the selected operator.
